*"When you open up your heart to the caring revolution,  
you discover you can be the soul of the solution."*

- Paul Hoffman

Fellow Lovers of Humanity,

If we're all so committed to *social justice, world peace, and personal fulfillment*, after all these years, why do we still have so much injustice, war, and corruption in the world today?

It's because we've been kept in the dark about so many things. *This source document will bring light to much of that.* Click on a content item below:

### *The Foreplay*

This is a place of *reference you can visit regularly*. Not all sections may apply to you right now, so you need not read this linearly -- you can easily skip to the sections most relevant to you (after you have watched the 3 introductory videos). As you may choose to become more active in this movement, you'll see that every section applies to everybody because the *fundamental issue of human corruption* is the true issue that brings humanity

together as one.

*Yo', whatever happened to the values of humanity  
Whatever happened to the fairness in equality  
Instead of spreading love we spreading animosity  
Lack of understanding, leading lives away from unity*  
- Black Eyed Peas, "Where's The Love?"

Some people may have discussed these issues years ago, and since then have felt that not much could be done. What's *available today* that wasn't available just five to ten years ago, is technology -- the *digital distribution of multi-media information across geopolitical borders at light-speed*. This document contains solid solutions that work.

What you are about to uncover affects people in *every nation of the world* because we are all interconnected in many ways. Some things may look US-centric at times because the United States of America has been a major geopolitical force in modern history until present day. The *biggest export of the United States is pop-culture media and Hollywood entertainment* which much of the world consumes. (For a Canadian perspective, watch the movie, "[Oh Canada: Our Bought & Sold-Out Land](#)".)

If you get shocked or have a quick emotional reaction to some of what is said, remember *Video #1 about brainwashing* (that *your reality based on mainstream consciousness is actually propaganda* and not necessarily real at all). Of course there are going to be things here that *will surprise you* (because they have been hidden from so many for so long). Instead of staying in your current paradigm of reality, *authentically consider what is being presented with an open mind*.

Before we can effectively discuss solutions, we should agree on what the problems really are. We found *three short videos that explain everything* and they will get us on the same page. *Make sure you watch them in their entirety before you read the rest of this document*. You can watch all three of the videos in *full-screen resolution* at <http://www.inspirationalentertainment.com/everything>

This document is *constantly being revised*. Make sure you read the most up-to-date version currently housed at <http://www.ordinarywords.com/solutions>. There are dozens and dozens of hyperlinks throughout this document, so you can find out more information, **check our sources**, do your own research, and most importantly, *take immediate action* to transform humanity. If you do not see hyperlinks in almost every paragraph, please visit the on-line, multi-media version (with pretty pictures), at the said location.

You may have noticed that *certain phrases are highlighted*. This is so that your eyes can *quickly skim* through this document, uncovering all the *major key-points* at lightening speed.

*Reading* this document in its entirety (approx. 20-25 minutes) will *expand your consciousness*. Contextualizing aspects of it to your life will be enlightening. *Applying* some of it in your community will *cause transformation*. *Choosing the destiny of our planet* is transcendental.

### *Updates*

Regularly check web-sites and news services like these. We are countering a very powerful and intelligent

force that is constantly changing as our awakening grows. For example, the Tea Party movement has been hijacked by the conservatives who are diverting the movement. But people aren't going to fall for Sarah Palin. Glenn Beck is an actor who mixes truth with fiction to cause false riots. He continues to call Ron Paul a cook when he is more of one.

The real challenging of the global awakening, is that it needs to be *a re-awakening all the time* to what really is. Our first awakening is seldom enough just like our first bath wasn't enough to keep our body clean our whole life.

## *The Quickie*

### ***3 Videos Explain Everything!***

[Total Run-Time: 16 Minutes](#)

#### ***Videos Summary:***

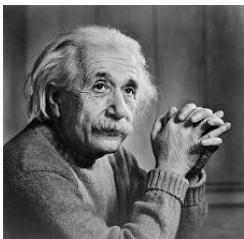

- All mainstream media is controlled by a few corporations that have used *excessive propaganda and mind-control techniques* to push forward their (corrupt) hidden agendas.
- *Our taxes* (average 51% of income) are *funding illegal wars, genocide, and murder* in countries around the world.
- Our governments are being controlled by corporate interests, and we are given *deliberate misinformation on health-care and national security*.

*Love is stronger* than fear.

#### ***Recommendations:***

- *Read this entire document.* Spend twenty minutes this week to *expand your consciousness*.
- Have *several conversations this week* to enlighten your community about what you have read.
- Skim through the document and *visit several links that INTEREST YOU* (there's something for everybody), to transform aspects of our humanity.

Our work is massive and that takes actions on many fronts. All you have to do is *one or two things* that you are interested in. When you *forward this to just 10 people*, and they forward it to 10 people each, that means *100 to 200 things would have been done collectively*. The "*viral*" or the "*passing it on*" will continue, and everything will get done by *all of us together*.

Then, we promise you, all the challenges of your life you are facing now, will be transcended. We will live in *a world that works for everyone*.

*"The world is a dangerous place to live,  
not because of all the people who are evil,  
but because of the people who  
don't do anything about it."*

- Albert Einstein

For *an audio introduction* to the Truth Activism Movement, listen to [Intuitive Soul Radio](#) as Laurie Huston interviews Danish Ahmed in this stimulating talk show. Press the play button below.

If you jumped right to the Quickie, you should [get into the foreplay now](#).

Otherwise, click the "Newer Post" link below to advance to the next section, [Step #1: Consciousness](#).

Just as *A Quickie* is not enough to sustain a wholesome relationship, your knowledge and understanding of these issues will be lost unless you *take further action*.

If you believe in our mission of *social justice, world peace, and personal fulfillment for everyone*, then, in addition to supporting illegal wars with your tax dollars, *consider supporting us financially* as well. All of us in this movement still need to use the current monetary system and would really appreciate you funding us in whatever capacity that works for you.

### *Step 1: Consciousness*

Mark Victor Hansen (*co-creator* of the *Chicken Soup for the Soul* book series and brand) once said that *all personal development* can be generalized down to four words: *"Tell the truth . . . faster."* *Anthony Robbins*, a popular icon in the *wellness industry*, has always taught, *"Step 1: See it as it is* (not better)." The notion of avoiding the negative (even if it is the truth) is a generalized misconception popularized by [The Secret](#) (A great movie to watch as a reminder of how to frame yourself for success).

Usually when things get onto *Oprah or Larry King Live*, they do get water-downed so much that they become inaccurate and misrepresented. Oprah understands this (the need for 10-second sound bites)... She has guests like [Abraham Hicks](#) on her radio show, but says that her television audience is not yet "ready" for it.

Jim Rohn, Tony Robbins' mentor said, *"Motivation alone is not enough. If you have an idiot and you motivate him, now you have a motivated idiot."* What's great is that there's nothing wrong with a motivated idiot -- that's a lot better than a lazy intelligent person because we can always teach more intelligence to those motivated. Unfortunately, a lot of intelligent people simply will not read this document because they are too lazy (conditioned instant gratification by the mainstream media). In these cases, *logic/information doesn't shift people; your inspiring words and leadership does*.

Watch this [quick summary of humanity](#), and [see what's coming in 2010](#)...

Watch the movie, *"End of America & the Free World: 10 Steps to Enslave an Open Society"* (90 minutes by Naomi Wolf, *New York Times best-selling author*) at [www.ordinarywords.com/end](http://www.ordinarywords.com/end) (FREE) for a deeper understanding of what's been presented in only 16 minutes.

If you are an academic, you'll enjoy *Professor Noam Chomsky's Manufacturing Consent* which illustrates the how the masses are controlled by the few elite, and there is no real democracy with all people.

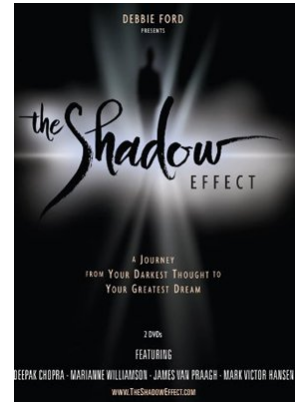

Focusing 100% on the solution is a fanatical perspective, and an illogical way of being. If we don't *understand the nature of the problems first*, we will not have solutions that are the most effective (and possibly counter-productive). Yes, spend 90% of your time on the solutions, once you understand the problem (since problems are always changing).

Knowing does make a difference, because *when there is a critical-mass of awareness, there is a tipping-point into action!*

*Love your dark side.* Transformation isn't just about positive thinking. It's about getting real first. Discover your dark side with Dr. Deepak Chopra, Mark Victor Hansen, and Marianne Williamson in "[The Shadow Effect](#)".

*Be grateful* that instead of reading through hundreds of pages of documents, and years of research, you are able to sit-back in the comfort of your home/office, to *watch an entertaining movie*. This revolution does have its advantages.

We *can* learn from history. But instead of reading from textbooks written by the victors of war many years ago, *how about watching movies created by modern-day activists who really care about you?*

There is *tremendous urgency* in all of this, because a lot of information about *Global Warming being a scam* has been surfacing. Watch this [video on the mainstream media with Glenn Beck](#) (from 2007) which doesn't get talked about very much today.

If this sounds very far-fetched to you, remember that *what you know is primarily based on mainstream mediums that use mind control techniques*. One of the triggers, for example, the media has engineered is the category of "*conspiracy theory*" so that you can disregard everything easily, without serious consideration. [The Capitalist Conspiracy: An Inside View of International Banking](#) defines and illustrates *what conspiracies really are*, and how they have been so many *throughout history*.

*We're not saying what's true.* We're simply committed to finding the truth. Those who aren't committed to finding the truth either have something to hide, or have been brainwashed to live in denial (e.g., focus on the positive/need of environmental sustainability -- true; but doesn't negate the scam of corrupt scientists/politicians making gluttonous amounts of money from it).

This *47-minute movie* is about everything they didn't tell you about *The United Nations* in history class. Check out [The UN Deception](#).

Watch other *truth activism movies* like Alex Jones' [Fall of The Republic](#), [The Obama Deception](#), Michael Moore's [Capitalism: A Love Story](#), plus [The Corporation](#), [Zeitgeist Addendum](#) (religion, monetary understanding, social engineering, 9/11, wars), and [Freedom to Fascism](#) (income tax).

Here's a *ten-minute extended trailer* for "[The Prosecution of George W. Bush for Murder](#)".

We also recommend [Kymatica: Will You Live or Die?](#), [Esoteric Agenda](#) (symbolism, Illuminati, history, lineage), [Ring of Power](#) (corporations of military, economic, and religious powers, London/Washington/Vatican), [Mayan Calendar & Consciousness Workshop](#) (history, 2012), [Food Inc](#), [The World According to Monsanto](#) (seed patents, food engineering), [Century of Self](#) (human psychology, Freud,

advertising), [The Story of Stuff](#) (extraction, production, distribution, consumption, disposal), and [The Story of Cap & Trade](#) (pollution, warming, corrupt movements).

Also look out for the new movies, [New World Order](#), and [Earth 2.0](#), coming out soon.

Now premiering in theaters, watch [COLLAPSE](#). Radical thinker **Michael Ruppert** outlines his apocalyptic vision of our world after the collapse of industrial civilization. A documentary by Chris Smith, the director of "*American Movie*" and "*The Yes*

*Men*".

You can watch [The Union: The Business of Getting High](#), which is a great documentary on the reality of marijuana/cannabis/pot and *how your government uses it for profit*. If you think corruption is limited to one area of government, then watch this documentary called ["A Funny Thing Happened on the Way to the Moon"](#).

Cancer, AIDS, and other diseases are caused by engineered biochemical weapons created by the Central Intelligence Agency for population control, genocide, and profit for corrupt medical institutions. Watch [In Lies We Trust: The CIA, Hollywood & Bioterrorism](#).

One unethical argument about our crusade for oil is that "we need it." Actually, we don't. There are lots of secret *free-energy systems*. Here's a [one-minute video](#) about *cars that can run on water*. Learn more about free-energy at [The Disclosure Project](#). Our government leaders' actions today are based on the foundation of a terrorist attack September 11, 2001, which is a lie. Here is [evidence that the 9/11 Truth Commission was a fraud](#) from the commissioners themselves.

The 9/11 Truth Movement has now made it to mainstream media. Watch this [The Fifth Estate](#) episode originally broadcast on CBC (Canadian Broadcasting Corporation), November 27, 2009.

We're surprised how so many people can just "deny" an entire genre of truth activism movies!! Look at this *ONE web site that has a [listing of hundreds of movies](#)*. It's a little overwhelming, which is why *we picked the top ones for you* (above). Can you imagine these thousands of people spending millions of dollars all for the validation of crazy "conspiracy theories"?

*Some videos contradict others*. We're not sharing an absolute perspective; we're trying to show you how to *discern diverse views yourself*, instead of simply accepting one view as the truth (especially the mainstream view).

Obviously, you don't need to watch them all. Just like there may have been professors at college/university who you didn't relate to, there may be a movie style that does not work for you. Don't prejudge the entire genre if one movie doesn't agree with you. Be open, and find a movie that works for you.

Here's a brand new video from David Icke about our world's power control structures, the *swine flu (H1N1)*, and the fork in the road that now awaits humanity. Watch [The Global Spiritual Awakening](#).

[Spread The Word \(Sprword\)](#) was started to *counter the continuing consolidation of mainstream media and its' limited and agenda-based reporting*. It counters corporate media by providing *links to articles, art, literature, music, and photography* that reveals what corporate mainstream media refuses to recognize as need-to-know information.

The most dangerous fears are the ones you can't see. When you avoid complaining because you think it is so wrong and negative, you are extremely fearful, and in fact avoiding the stand you need to take in order to stop an emerging oppressive government. **You are allowed to complain about people who are being unethical, immoral, fraudulent, and inhumane.** [Being mad](#) is part of the human condition, and doesn't mean that you are anti-"Secret". **Wake up and change the world.**

Of course, **getting mad is not enough.** When people just get mad, there is a revolt. However, revolts have never been successful. **Revolutions**, on the other hand, **are successful.** A revolution has **structure, organization, intelligence, and training.** That's what the rest of this document is for.

Protect yourself by knowing your rights. Watch [BUSTED: The Citizen's Guide to Surviving Police Encounters](#).

Don't get overwhelmed by all of this. **Remember your context**, as you uncover ["The Meaning of Life"](#) with Abraham-Hicks in this short 4-minute video.

Even if you disagree with many/all of the theories presented, the solutions outlined in the rest of this document will benefit humanity. **Everything suggested is positive, future-oriented, and inclusive of all people/perspectives.**

The rest of this document is **extremely solutions-oriented**, in that no explanation is given for recommendations or suggested actions. If you are interested in some of the rationale, refer back to this movie library or **ask someone within the community.**

If you're interested in **understanding the theory around power structures** and how important it is for us to reclaim them, watch this [workshop where G. Edward Griffin gives beautiful analogies](#) to explain why democracy doesn't work, **collectivism, and individualism.** He truly has a grasp on exactly what it takes to **change the world.**

Take the **red pill** and know how [humans are part of the livestock management system](#). And that's OK, because this video will show you [what enlightenment really is...](#)

[This interview describes how The Secret Societies got discovered](#), the growth of *The Council on Foreign Relations*, and what the **future of this movement** will look like.

You are finally ready to hear the **the forecast of twelve major events between January 2010, and December 2012** from Adrian Salbuchi. We are now in the [transition from globalization to world government](#). Do not watch this video unless you plan on implementing solutions from the rest of this document.

[The Institute of Noetic Sciences \(IONS\)](#) conducts and sponsors leading-edge research into the potentials and powers of **consciousness—including perceptions, beliefs, attention, intention, and intuition.** The Institute maintains a commitment to scientific rigor while exploring phenomena that have been largely overlooked by mainstream science.

## Step 2: Community

**"Never doubt that a small group of thoughtful, committed people can change the world. Indeed, it is the only thing that ever has."**

- Margaret Mead

Go outside. Talk to your neighbors, join [local groups/clubs](#), and love the strangers you pass by. **Smile, hug, acknowledge, and compliment.** :) For a three-minute reminder of what love really is, visit

<http://www.TheLoveMovie.com> or watch this great *15-minute short-film* called [VALIDATION](#).

When in line or waiting on the bus, instead of listening to your iPod, *talk to the person next to you*. Reconnect with distant family. *Call friends* you haven't seen in a long time. *International calling is free* with [Skype](#).

Guide conversations to topics of *consciousness, transformation, love, and humanity*. Do it live with people, and do it in *on-line discussions* with organizations like [Global Mind Shift](#).

Forward this information, *share it* on [social networking sites](#) like [Twitter](#), *rank it* on [social bookmarking sites](#) like [StumbleUpon](#), and *keep the conversation alive*. Many people simply don't have the conversation because they are afraid of the unknown. You are a pioneer, and *your initiative will comfort them* -- knowing they are not alone.

(Pssst... You could even *deliberately speak loudly in public spaces* so strangers and on-lookers can hear your conversations about transforming humanity.)

*Your family and close friends get tons of e-mails* just like we all do. Make the effort to *physically sit down with them*, and watch the three introductory videos. It's great time spent together (rather than just the usual sit-com/news), and it can *develop into hours of fascinating discoveries about each other's point-of-view*.

Please don't sit back hoping other people are going to do something instead of you. We're competing with mass media conditioning, and we need you -- *each and every one of you* -- on this humanitarian mission.

*Host movie screenings at your house*. It's a great ~~excuse~~ reason to invite people from the neighborhood you do not know, connect with them, and at least *discuss world affairs*. We're not out to make money here; we are out to change the system. Every producer of these movies has spent *thousands, if not hundreds of thousands of dollars of their own money* to awaken humanity. We want you to *copy them, distribute them, and freely share with everyone you know*.

Gandhi said, "*We must be the change we wish to see in the world.*" That's why personal development, and being immersed in communities of people who are committed to their personal growth, is essential. A great free place to start is on-line with [The HUB eAcademy](#), [SelfGrowth.com](#), and subscribe to our blog at <http://ordinarysparks.blogspot.com>). The best community of personal development we recommend is [The Landmark Forum](#) (available in 21 countries worldwide).

Read "[3 Critical Steps to Starting a Personal Development Program RIGHT](#)" and then choose any program that works for you.

Dr. Stephen Covey, Dr. Bernie Siegel, *Dr. Deepak Chopra*, and *Marianne Williamson* star in a 60-minute documentary about personal and spiritual development, and *the meaning of life*. You can watch, "[QUEST for](#)

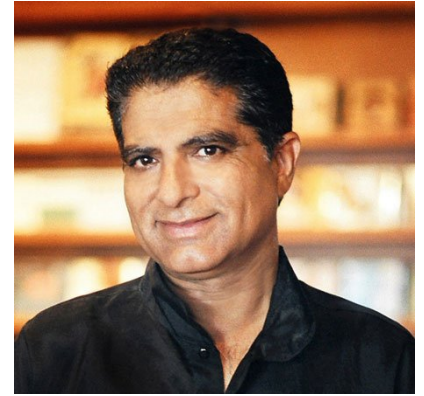

[LIFE, Volume I: Discovering Your Human Potential](#)", the entire video, for FREE.

For a fascinating history of the *human potential movement*, watch BBC's [The Century of Self, Part 3](#), which also includes information about *Werner Erhard and EST Training*.

Use on-line services *that cause real-life actions* like [Tagged by Kindness](#) and [Acts of Kindness](#) to *spread more love* in the world.

Get involved in your community with *innovative volunteering concepts* like [Time Raisers](#). If you would like to contribute your *business, marketing, or management skills* to the community, check out [BoardMatch](#). To inspire yourself first, read [5 Different Ways to Make Volunteering Exciting, Rewarding & Beautiful!](#)

## ABOUT THE MOB

[Me To We \(Mob\)ilizers](#) actively hold *campaigns, local city events and generally inspire the masses about the real issues: Poverty. Education. Injustice. Apathy.* We are idealistic, we are dedicated and we are dynamic. We are the change we want to see in our world.

The [Burning Man](#) community *creates social environments that are unmediated by commercial sponsorships, transactions, or advertising.* They stand ready to protect this culture from such exploitation. They resist the substitution of consumption for *participatory experience.*

Burning Man is also an annual art event and temporary *community based on radical self expression and self-reliance* in the Black Rock Desert of Nevada. They have [local chapters](#) all over the world which provide a nourishing community.

[Harvest Festival](#) is an annual autumn festival dedicated to *self-expression* and community. The festival is a place of *choice and action*, a place to share in the communal vibe *inspired by music, friends and natural beauty.* It's a place where we gather to *create, experience and discover.* Find a Harvest Festival in [your area.](#)

Participate in the [message board of the OM Reunion Project](#) which provides an *inspirational and educational community retreat.*

[Exopolitics](#) is a group of international, not-for-profit educational organization dedicated to inform and fully disclose facts about *UFOs, extraterrestrial visitations, and classified advanced energy and propulsion systems.* We work closely with other ufological, disclosure & exopolitical based organizations and individuals around the planet, towards one purpose: the end of the truth embargo surrounding UFO's. It is time for us all to rightfully know that we do not live in isolation, but live in a fully populated universe. We need to know this so that we can make appropriate decisions for the continued survival and dignity of Earth and it's citizens.

If you like to travel, you'll love [MindMyHouse](#) – a *global house sitting matching service.* We provide all the online tools for home owners and house sitters to find each other from around the globe (or around the corner). Our house sitters provide their pet and house sitting services for free in exchange for the privilege of accommodation in the owner's home.

Don't lose the *human touch*. [Send out physical cards](#) to keep in touch with people, and see what a difference it makes!

It's also important to nourish a spiritual connection.

***Religious people are afraid of hell, spiritual people have already been through it.*** Religions, however, do understand something about community. ***A spiritual person in isolation is like a contradiction.*** A very modernized organization I sometimes attend is called [The Meeting House](#). They use clips

from movies (like *The Matrix*) and modern culture to deliver spiritual teachings in a relaxed style. Their motto is: ***"A Church for people who aren't into Church."***

***"Sometimes what we most need to learn,  
we do not even know we need to learn.  
That is the huge benefit of a Mentor."***

- Raymond Aaron

Get a mentor. If you are interested in being mentored by the co-author of *Chicken Soup for the Canadian Soul*, [visit this web site](#). Raymond Aaron has a complete proven-program of mentorship, and at the very least, you can get his FREE book ***"Double Your Income Doing What You Love"*** just for visiting.

### ***Children & Youth Programs***

Whitney Houston is known for singing, ***"I believe the children are our future."*** That being the case, this can be considered the most important section.

[Future Possibilities](#) is a 501(c)(3) nonprofit organization that delivers ***life skills coaching programs to children***. At no cost to the family, each child in our program is provided a trained, volunteer "Kidcoach." Through one-on-one coaching sessions and group workshops, the "Kidcoach" serves as ***a positive role model, develops a personal coaching relationship with the child, and guides the child to define, plan, and achieve a goal of contribution.***

[WatchKnow](#) is a great web site with ***videos for kids to learn from -- organized.***

[AIESEC](#) is the *world's largest student-run organization*. Active in over 1700 universities across more than 107 countries and territories, our international platform enables young people to explore and develop their leadership potential for them to have a positive impact in society.

### Step 3: Commerce (Circulation)

Dr. Michael Beckwith (star in "The Secret") describes a *new paradigm of commerce in terms of energy*, where we give and we receive until we realize that *giving and receiving is one in the same thing*. Listen to this quick audio by pressing the play button below.

*Entertaining cartoons* explain money, banking, bailouts, and solid solutions for ethical commerce. Watch "[Money As Debt II: Promises Unleashed](#)".

Do business with [local merchants like Business Networking International](#) or [Referral Quest](#) instead of people you don't know, franchises or faceless monopolies. *Support the arts*, and buy tickets to the events hosted, produced, or marketed by your friends.

In any ethical marketplace, value is associated to physical products, common services, *unique knowledge*, or *special ability/talent*. What it also possesses is an element of social credit (*networking, it's who you know, or reputation -- who knows you*). Our current mainstream monetary system has both these huge elements, which is why *our monetary system seems like an ethical system in general*.

It's always a good idea to invest in yourself (*consciousness, knowledge, ability*), and social credit (*helping others, giving to community*). This is more important than acquiring monetary wealth because when our current system crashes / as we transition into a new one, it will be *your intelligence and your relationships that will quickly build your new wealth*. Gift the article, [7 Totally Different Ways to Give Big to People](#).

**DEBT ELIMINATION PROGRAM:** Completely, lawfully, and ethically, eliminate all of your debt. Download the [Debt Program Overview PDF](#) and read the [Debt Program Frequently Asked Questions](#). When you are ready, e-mail [Terry Tillaart](#) and let him know Danish Ahmed sent you.

Participate in *grass-roots movements* like [Seed Your City](#). Engage with emerging neighborhood projects like the [inspiring Fireweed Universe-City](#) happening in Detroit, Michigan. Grow and/or buy *local food*. Have a well-balanced, healthy diet and use supplements and nutritional products like those from [Vemma](#), [Juice Plus](#), and [TriVita](#). [E-Foods Direct](#) is a great resource to stock and consume foods that are very good for you. [Melaleuca](#) is a wellness company that offers *eco-friendly cleaning, laundry, bath/body, dental, and beauty*

*products.*

[DreamNow](#) is a charitable organization that produces ideas that do good for the world. As a producer, we bring together people, raise money and plan for the growth of ideas that we believe will do good for the world. We are a charity but some of the ideas we help grow are social enterprises while others are more traditional such as research programs.

**FREE BOOKS!** [Occupation: Change the World](#) is a research project and program which is answering one question: *How can people in their twenties and thirties make money and change the world?*

If you are entrepreneurial, you'll prefer this book, [How to Make Money & Change the World](#)

[Our Water Changes Everything!](#) Discover the amazing benefits of water ionization technology. While very popular in Asia for the last 20 years the water ionizer is still largely unknown in the West. Find out how energized, ionized, alkaline water can benefit you and your family.

**The general rule of community commerce:** If you do register on any of these web sites, always use: **A)** The name of the person who may have in the past told you about that particular

product/service, first. **B)** The name of the person who told you about *this web site*, second (they may not be registered, in which case *you can register them*). And, **C)** If they don't want to participate, register under **Danish Ahmed** (creator of this web site).

Take time to know how the *current mainstream monetary system* really works. Give all the people at your local bank a copy of "*Money as Debt*" (DVD) to awaken them. For more information, visit "[Hug Your Bank](#)".

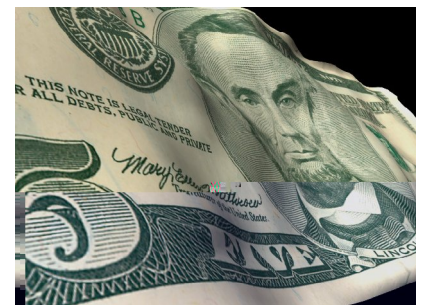

There are *several alternative* and completely *ethical monetary systems* we can use. Here's a currency based on *your time* called [Time Dollars](#). Here's the [Digital Coin](#) created by Paul Grignon.

Founded in 2003 by Lynne Twist, the [Soul of Money Institute](#) is a center for exploring and sharing the best practices, theories, and attitudes that *enable people to relate to money and the money culture with greater freedom, power, and effectiveness*.

[GlobalMojo](#) is a new web browser that helps you *generate money for your favorite causes* (including millions of registered charities and non-profits around the world) simply by *browsing the Internet the same way you do every day*, and at no cost to you.

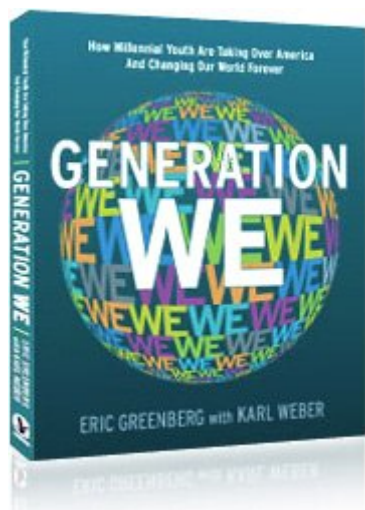

*It doesn't take money anymore to get mass exposure.* What it does take is a collective consciousness of individuals committed to a common purpose. Now there are FREE full-day workshops around the world that will *teach you financial intelligence*. *If you can read, but don't, you may as well be illiterate.* So join us at the next [Millionaire Mind Intensive Weekend](#).

Instead of seeing a doctor, visit a holistic nutritionist, an intuitive/spiritual healer, or [alternative professional equivalent](#). Don't see a psychiatrist, see a psychologist or psychotherapist. Rather than inject pharmaceuticals, *uncover meet-up groups on the Internet which have the challenges you face*.

Research alternative medicine and natural remedies. Look into [Montessori](#) and other forms of alternative

education for your children, or institutions like [The Transformational Arts College](#) for your continued education. [The Graduate Institute](#) offers *programs in emerging fields of academic inquiry*.

Did you know how *socially and politically aware* [Generation We](#) is? Support them *financially*, because they have the *genius and drive* to change the world. Maybe you have *Indigo children*? Embrace their wisdom.

Don't spend your time or consciousness trying to save \$5 (you're probably spending more money in gas, not to mention all the inconvenience/frustration). Instead, learn about *taxes and interest*, because they are the *two biggest expenses of your life*. The best way to avoid both of them is to *barter whenever possible*, or join *barter networks*. "[Local Exchange/Employment Trading Systems](#)" ([LETS](#)) allow people a *hybrid system of currency exchange with local bartering*.

*Joint-venturing* (like being an *affiliate partner*) is a great way to do business, eliminating transaction cost and fostering more community/co-creation.

Invest in *people you know* and *organizations you care about*. You don't need a lot of money to make a difference. There are lots of *new business models* which allow you to *make a big difference with very little money*. For instance, fund movies made by movements, such as "[The Shift Movie](#)". [Pirate Myfilm](#) is a pioneering platform for *user-financed content* and a great way to acquire funding for *your movie/film project*.

Become knowledgeable about the *multi-level/network marketing industry*. These organizations are much *more ethical* (not perfect) than the brands you've been brainwashed to feel so good about -- and you'd be *supporting your family and friends* (and their families, and their friends, etc., etc.).

See how the *media deliberately portrays MLMs as negative*, in this short video called "[The Media Virus](#)".

There are many health-oriented MLM companies with *products that are not available in the mainstream marketplace* simply because they are "*magical cures*" that would hurt the pharmaceutical companies. Some products have known to degenerate cancers and build stronger immune systems. You can look into [Vemma](#), [Juice Plus](#), and [TriVita](#).

[Tragedy and Hope](#) creates and *incubates holistic, sustainable projects targeted at addressing mankind's most urgent concerns*; while laying an unshakable foundation to carry Us into the future while empowering all people with the information to make informed decisions in their lives.

Forget about lawyers. Write contracts for the sake of *effective communication*, and choose to do business with those *whose word you trust*. The only ones who win in a corrupt legal system are the lawyers who have no incentive to authentically transform your situation.

### *Social Entrepreneurship*

When you leave your money dormant in a bank, it isn't dormant at all. *Institutions are leveraging that money*

(multiplied by 10 based on our fractional-reserve banking system) to fund wars, genocide, and corruption. There are so many more noble things you can do with your money, especially as the dollar rapidly declines to nothing. **Put your money to work** -- on the things you believe in.

Social entrepreneurs are individuals with innovative solutions to society's most pressing social problems. They are **ambitious and persistent, tackling major social issues and offering new ideas for wide-scale change.**

Rather than leaving societal needs to the government or business sectors, social entrepreneurs find what is not working and **solve the problem by changing the system, spreading the solution, and persuading entire societies to take new leaps.** For more information, visit the [Canadian Social Entrepreneurship Foundation](#).

[The Centre for Social Innovation](#) is a dynamic space in downtown Toronto, Canada. Our mission is to **spark and support new ideas that are tackling the social, environmental, economic and cultural challenges we face today.** We're creating the spaces that social innovation needs to thrive and we're contributing a few of our own ideas along the way!

**Become a social entrepreneur. Humanity Unites Brilliance is an organization that helps fund social entrepreneurs. You can do well by doing good.** [Earn a living by giving.](#) Participate in our **economic engine** to fuel **all charities and non-profits** of the world. It's a new paradigm in business and humanitarian living. It is shifting our economic constructs from an acquisition and control model, to the new emerging gift economy.

[Continuum](#) is a social enterprise that works with non profits and corporations to help them do more with the people they already bring together.

Justmeans helps companies engage with people on issues of social responsibility using our simple technology tools. Companies are able to reach over 200,000 thought leaders on [Justmeans.com](#) along with millions of the right people on Facebook and Twitter

If you would like to engage in this culture, buy **books, DVDs, or magazines**, visit [Conspiracy Culture](#).

If you believe in our mission of **social justice, world peace, and personal fulfillment for everyone**, then, in addition to supporting illegal wars with your tax dollars, **consider supporting us financially** as well. All of us in this movement still need to use the current monetary system and would really appreciate you funding us in whatever capacity that works for you.

**How much value did you get from reading this?**

## Step 4: Co-Creation

Participate in the development of *social, political, and economic constructs*. You are not just a citizen of the planet; you are *a member of the human species* that has an *integral role in our collective*.

Examples may be working to audit and/or [abolish \*The Federal Reserve\*](#), or writing letters to your representatives in parliament to make sure *legislation like Bill C-6 do not pass*. Watch [constitutional lawyer Shawn Buckley](#) as he demonstrates how the *government is using health care to eliminate citizen liberties*. You can also choose to contribute to our political party, the [Party for People with Special Needs](#).

There are *so many new kinds of constructs* emerging like [MoveOn](#). Join the [American Freedom Campaign](#), [Campaign for Liberty](#), the [Canadian Action Party](#), or [Freedom Force International](#). [World Shift 2012](#) is co-creating the foundations of a *peaceful, just and sustainable world* by the end of 2012.

[We The People Congress](#) is a nationwide, non-partisan, not-for-profit membership organization of constitutional activists committed to *"institutionalizing" citizen vigilance through civic education, monitoring of governments, and organizing grassroots programs of civic resistance* to confront and repel tyranny.

[The Earth Charter](#) is a declaration of fundamental ethical principles for building a *just, sustainable and peaceful global society* in the 21st century. It seeks to inspire in all people a new sense of *global interdependence and shared responsibility for the well-being of the whole human family*, the greater community of life, and future generations. It is a vision of hope and a call to action.

[ThinkFREE](#) is dedicated to helping achieve a freer and more just society, where *authority is achieved without deception* and exercised *with restraint, understanding, accountability and compassion*. We employ *satire, comedy shows, guerrilla videography, Notarial justice, advocacy, public action and dance* (seriously, never doubt the power of dance).

[A Freeman-on-the-Land](#) is a *human being in a common law jurisdiction who lawfully revokes or denies consent to be represented and governed* and exists completely free of all statutory restraints, obligations and restrictions.

[Kiva](#) is an organization that allows you to *lend small amounts of money* to those in developing countries, through *Micro-Loans or Micro Credit*. This concept is revolutionizing banking, and is also a component of [HUB's Total Package Giving](#).

Don't submit to authority. Their responsibility is to *educate you, not to indoctrinate you*. So ask them questions about the swine flu, like, *"have THEY taken it yet?"* (FYI, Obama has not.) Know what you are *putting in your body* and why you are putting it there. Ask your health care professional if they feel President Barack Obama calling a state of national emergency for H1N1 was warranted? *No question should be considered stupid*. Listen to Barbara Loe Fisher from the [National Vaccine Information Center \(NVIC\)](#) about the swine flu.

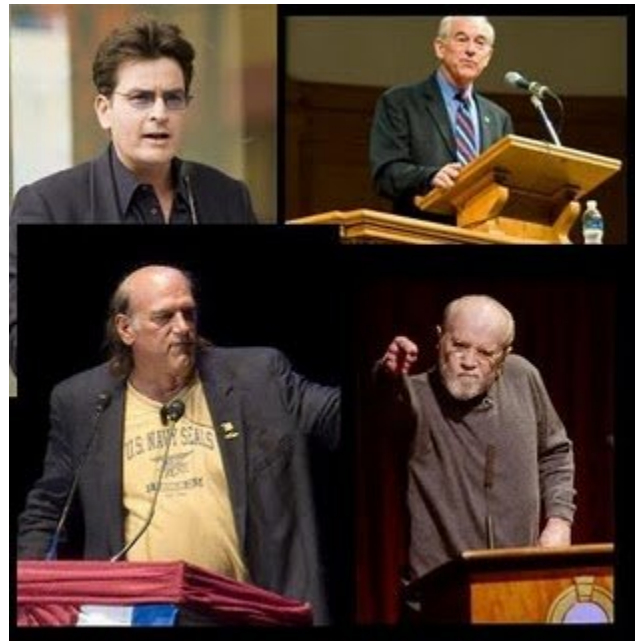

*A "democracy" that markets to its citizens while restricting the freedom of the press from giving alternative views, is in transition to a dictatorship.*

Join the *Truth Activist Movement*. There are many people who are well respected with public names like [Congressman Ron Paul](#), comedian [George Carlin](#), wrestler [Jesse Ventura](#), and actor [Charlie Sheen](#).

Jesse Venutra also has a new television show on TruTV called *"Conspiracy Theory"* which discusses these specific issues. Watch the [first episode](#) discussing HAARP which is a US military operation that has *weather and mind control technologies*.

[Clutch](#) and [Sons of Liberty](#) are great rock bands that have many songs talk about the *New World Order*. For those who like heavy metal, check out [System of the Down](#).

*Kevin Trudeau* is fast becoming the world's foremost consumer and natural health advocate! He is also regarded as the most fearless *whistleblower of corporate and government corruption* of all time! Mr. Trudeau is a former *"corporate and government insider"* and founder of over 60 companies all around the world.

Watch this November 20, 2009 interview with Kevin Trudeau exposing the *corruption of the pharmaceutical industry* and how they are attempting to ban his books and take away his freedom of speech. (YouTube removed this video; we need to start copying these videos because the information war is on.)

Watch an extended trailer for [Believers Beware](#) (which shows the nature of the corrupt pharmaceutical industry).

As part of your *e-mail signature*, put *"Truth Activist, [www.ordinarywords.com/solutions](http://www.ordinarywords.com/solutions)"*. This one strategy alone could awaken the planet! Encourage your friends to do the same as a *teaching strategy for marketing effectiveness*.

## Step 5: Collaboration

Know that partisan politics have been a disguise for distraction. Get involved in *non-partisan organizations like the emerging new >Tea Parties* (February Update: [Tea-Parties hi-jacked by conservatives and Sarah Palin.](#)) If you work for or volunteer in *a major political party*, ask them to *look at these issues* and the true concerns of those *they authentically represent*. Direct them to this *Truth Curriculum* and *demand that they give you some answers*.

You can collaborate in the international [Zeitgeist Movement](#), developing new *personal, social, technological, and spiritual constructs*. We are committed to creating a *world without money* -- developing a *resource-based economy* where the living needs of every citizen are met first.

In association, [The Venus Project](#) presents a bold, new direction for humanity that entails nothing less than the *total redesign of our culture*. Join us for [ZDAY 2010 on March 13/14/15](#), where communities gather world-wide to increase public awareness of this movement. Join the *Urban Playground Movement* with [NewMindSpace](#).

[We Are Change](#) is a *citizens based grassroots peace and social justice movement* working to reveal the truth behind the events of *September 11th*, as well as the *lies of the government and corporate elite who remain suspect in this crime*.

[Freedom Force International](#) is a network of men and women from *all parts of the world* who are concerned over loss of personal liberty and expansion of government power. They are not mere complainers. *They have a plan to do something about it*.

Barbara Marx Hubbard is a visionary who is transforming political constructs of the world. She is a pioneer in [Conscious Evolution](#).

Collaboration isn't confined to our communities and nations. We must *collaborate with all people of the world*, including all *indigenous tribes* who are its *natural custodians*. [The Pachamama Alliance](#) produces interactive, multi-media events that create a conduit of understanding between our cultures.

We have a solution that literally helps transition our *current monetary system into the emerging gift economy (Michael Beckwith's articulation)*, by *circulating wealth to the non-profits and charities* of the world. We have a blueprint which will *eliminate world poverty* (20,000 children die everyday). Discover more about *Humanity Unites Brilliance* at <http://www.GiveWhileYouReceive.com/MrDistinct>

Part of the construct is to *facilitate the coming together of problem-solvers* in order to transcend the challenges of our time. This shift is in creating an environmentally sustainable, spiritually fulfilling, and socially just world *that works for everyone*.

[Me To We](#) is helping people *change the world with their daily choices*. Through their brands of speakers, books, fashion, and trips, they raise money for Free the Children. [Free The Children](#) is the *world's largest network of children helping children* through education, with more than one million youth involved in this innovative education and development programs in 45 countries.

Engage in social networks about *philanthropy and humanitarianism*. You can start at the [HUB Circle of Humanity](#). There are no *conspiracy theories*; only *collaboration theories* which many have come true.

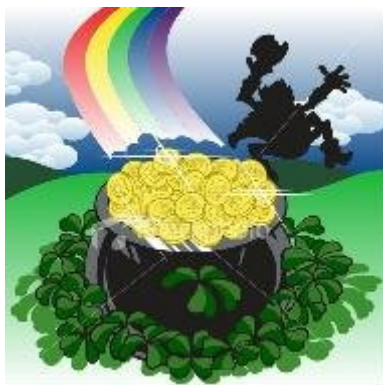

There are literally thousands of new organizations emerging every month now.

[WiserEarth](#) helps the global movement of people and organizations working toward *social justice, indigenous rights, and environmental stewardship connect, collaborate, share knowledge, and build alliances*.

[NeighbourhoodOne](#) is a network of people, groups and organizations that are working for change across Toronto's neighbourhoods. Started in response to the explosion of good work going on in Toronto, NeighbourhoodOne addresses the needs for groups to get connected, share resources and collaborate.

Initiate or *promote co-operatives*. The new battlefields of the revolution will be the Internet and fought in virtual worlds. Therefore, telephone, videophone, cellular, security, and internet services are good ideas to get bundled inside of a co-operative that can save you money and generate income. If you'd like to join our telecommunications team, contact us (ID #01120083) regarding [ACN - All Communications Network](#).

The currency that has stood the test of time for thousands of years is that of precious commodities like *gold and diamonds*. Don't just make gold a part of your portfolio -- collaborate with a whole community dedicated to leveraging this currency as a new standard for commerce. For more information, visit [Global Wealth Trade](#).

### ***Step 6: Celebration***

It's important to be *playful and enjoy the process* of everything we do. *Success is a journey, not a destination*.

Everything you take for granted today can be gone tomorrow, so make sure you *make the time* for the things that are *most important to you*. What would you do if you had *just one more hour every day*?

We create communities that *integrate transformation with social events*. [Become a fan on Facebook](#) and join our newsletter list for invitations to *fun gatherings and cool parties*.

[Stuart Knight](#) produces *inspirational live shows and musicals*. He wrote the "Change" Rap you can hear by pressing the Play button on the top-right of this web page. It's a beautiful song with excerpts from *Dr. Martin Luther King Jr.'s famous speech*.

For example,

Every morning you could wake up to empowering [Success Songs](#) from Paul Hoffman. Click the play button to listen to *"The World is Calling..."* right now under *"Theme Song"* at the top-right of this web page. Use *music to awaken humanity!*

We would welcome any *graphic design skills* to make this web site look much more pretty. Right now it's done by a blind guy. ;)

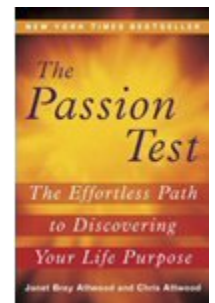

### Turn one-time Website Visitors

As entrepreneurs, *we want you to plagiarize all of this. Put your name* on it and get more exposure for yourself. If you have a newsletter list ([create one with AWeber Communications](#) if you don't), have your webmaster copy this web page and put your newsletter subscription at the bottom instead.

*Host this document on your website* to brand it even further. Modify the [AddThis](#) tool so the this *viral campaign promotes your brand*. The *Truth Activist Movement* is relatively new and can generate lots of traffic if positioned correctly. Do you know that at the time of this writing, <http://truthactivist.blogspot.com> is still available? Claim it!

If you have any *video editing* abilities (it's very simple these days with [Windows Movie Maker](#)), then create your own cool videos like [this one](#) about truth activism and *the awakening*.

If you are an artist, *produce material that integrates this new activist movement*. Write plays. *Direct documentaries*. Choreograph dances. *Develop this genre*. Sing music. Perform *spoken-word* or *slam poetry*. Draw Comics. Express your new found knowledge through *your gifted talents*. Always carry a *video-capture device* (cell/camcorder, especially at *protests*), and *upload your videos everywhere*. Uncover your authentic passions with [The FREE Passion Test Profile](#).

For those who speak/write other languages, *please translate this*. We are a very *multi-cultural society*, and we need this be available in *as many languages as possible*.

### **WARNING: High-Risk Sexy Solutions**

We don't advocate violence. However, [the right to bear arms](#) is a founding principle for the freedoms of the United States of America, *protecting the citizens* from a potential oppressive government. And, The United Nations is currently pushing for the [disarmament of all citizens of nations](#) (deviously embedded in the disarmament for Weapons Of Mass Destruction), in order to assert its control for world government.

*Love is stronger* than fear.

It is always a good idea to *take self-defense classes* to protect your personal *safety*, to improve your *health*, and to increase your *vitality*. There are many new kinds of *hybrid programs* that *combine yoga, martial arts*, and other disciplines (e.g. [Nia Dance](#), [Freedom Dance](#), and [Contact Improv](#)).

*“Liberty can only be maintained by having an educational system that teaches it, a governmental system that protects it, and an economic system that funds it.”*

## **Media**

Send a [press release](#) to your *local television, newspaper, and radio stations* which highlights *points from this document that you are passionate about*. Or just send this entire document for ease. When enough people send them the same questions, they will be forced to discuss them. They will try to take you off on tangents, so you need to *be pro-active in your assertions*.

Don't spend a lot of time watching television, or even reading newspapers. Personal development taught to avoid television, and historically that may have been wise. Today, avoidance is a flawed strategy. You need to *become an educated citizen*, and that does not mean you do not pay attention to what's happening in the world. What that means is you spend about 30 minutes a day going through the *major news broadcasters* like [Fox](#), [CNN](#), [MSNBC](#), to see what they are doing and what they are presenting.

Then, *watch alternative media shows on the Internet*. Watch the [Alex Jones Show](#) if you like people who *share with all their passion*. Watch [weekly radio broadcast from Peter Joseph](#) (creator of the Zeitgeist movies) if you *enjoy listening to intellectuals*.

Other great alternative media sources include [Russia Today News](#) (some Russians are now saying Russia is more free and democratic than the United States), [What Really Happened?.com](#), [MOX News](#), [Ted Fish Alternative Media](#), and the [AMIC Alternative Media Portal](#). For a listing of alternative newspapers in your area, visit [Alternative News Sources](#).

**FEDERALJACK.COM**  
CONSPIRACY IS NO LONGER THEORY

[FederalJack](#) is a *user driven news source* dedicated to exposing information and multimedia relating to the *New World Order takeover* of the United States and the rest of the free world. It is a non-partisan organization of concerned citizens world wide.

[MATHABA](#) (*Media Active To Help All Become Aware*) is the world's leading independent news agency and a major online news network. We have the most advanced and effective news distribution. We also have a *public forum which is independent of our news agency where readers can "Meet And Talk, Helping All Become Aware."*

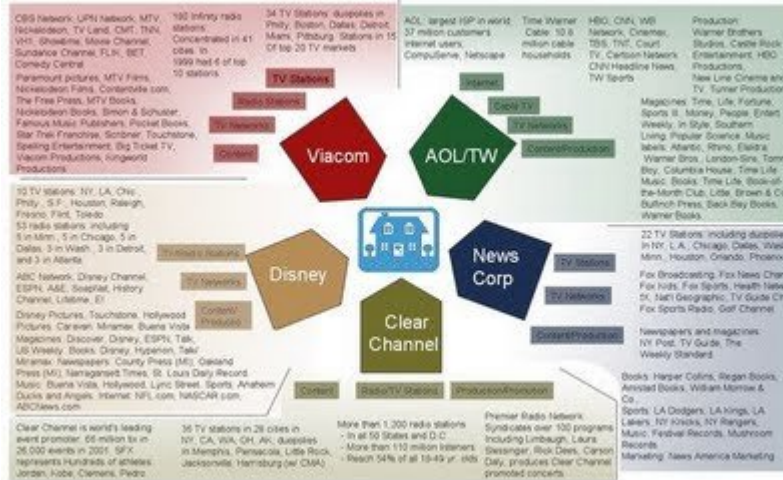

[Al Jazeera English](#) tells the stories that other networks do not. As the *"Voice of the South"*, headquartered in the heart of the Middle East, and with close to 70 news bureaus worldwide, Al Jazeera covers under-reported regions and events across the world through a spirit of *journalism that is honest, courageous and distinctive*.

Powerful ideas for all lovers of personal and political freedom - [Freedomain Radio](#) is the *largest and most popular philosophy show on the web*, and was a *Top 10 Finalist in the 2007, 2008 and 2009 Podcast Awards*. Topics range from politics to philosophy to science to economics to relationships to atheism - and how to achieve real freedom in your life today. Passionate, articulate, funny and irreverent, Freedomain Radio shines a bold light on old topics, and invents a few new ones to boot!

This will uncover the other side of the media story for you. We're not about extremism. We want you to see both sides so you can learn how unethical one side has been.

If you work for the media, don't just read everything that's on the teleprompter. Do your own research on the Internet, and make sure *all major sides of each issue are given their due airtime*. If they are not, then go to your manager, and demand that they are. This is the point where you *take a stand for humanity*.

Have *Danish Ahmed be a guest* on a show, or *be interviewed* in a program, as an unofficial *representative of the Truth Activist Movement*. Danish is available anytime. You can direct media to this [detailed 10-page biography](#) illustrating credentials. Very quickly, Danish is a well-respected entrepreneur in the personal development industry, with [a best-selling book](#), on-line movies *seen by millions of people*, a background in technology (\$1.5 million dot-com), and a following of 35,000 people. He is also able to get access to other big names in various industries.

We have already made it into mainstream media. Look at this [lengthy article done by Toronto's CityTV](#).

Make sure you know what *your children are watching*. Some cartoons are becoming propaganda tools to teach children things like *"torture is OK and funny."*

### *Military & Police*

Your biggest allegiance could be to your *inner spirit and soul*. Are you doing what you have been called to do? Or are you doing something just because it is a part of a command-structure? There's nothing wrong with a beautiful and powerful command-structure, if you truly understand it. [Oath Keepers](#) is a non-partisan association of currently *serving military, veterans, peace officers, and firefighters* who will fulfill the oath they swore to support and defend the *Constitution* against all enemies, foreign and domestic.

[Iraq Veterans Against the War \(IVAW\)](#) was founded by Iraq war veterans in July 2004 at the annual convention of Veterans for Peace (VFP) in Boston to give a voice to the large number of active duty service people and veterans who are against this war, but are under various pressures to remain silent.

If you are part of a *police force*, please remember that your duty is to *serve and protect citizens*. Whenever you get an order to do a mass-raid, invasion without a warrant, harassment, or any other form of unethical behavior to your fellow citizens, remember reading this. Any kind of *activism should be protected*, not criminalized. If you are policing any protests, protect the protesters. You would be shocked to see what happened at the recent [G20 Summit](#).

*Honor your mother* by watching this short [Mother's Day Proclamation \(1870\) for World Peace](#). **Vanessa Williams, Felicity Huffman, Christine Lahti, Fatma Saleh, Ashraf Salimian, Gloria Steinem, and Alfre Woodard**, have come together to create an inspirational video for you from *mothers of those at war*.

## **Government**

Don't pay your taxes. Your government is using *your tax money to fund genocide and illegal wars of aggression*, and conspiring in the killings of millions of innocent people. By law, you are aiding and abetting war crimes, and it is your responsibility not to fund that. There are lawful ways you can avoid paying taxes which you can search for on the Internet. To learn more about *War Law* and *International Courts*, visit [Make War History](#).

There are lots of good reasons to *be an entrepreneur* instead of an employee. At least *consider being a contractor* so that you can *deduct expenses as a corporation*, protect yourself legally, and easily *not pay any taxes*. There have been many people in the United States who have not paid their business taxes -- while a few are being unlawfully jailed, they cannot stop the majority of people. Our biggest *strength is in our numbers!*

Contact your local police and tell them about the crimes against humanity committed by our politicians. Print-out and send them [this 10-page detailed report outlining all the crimes](#). They have a legal and moral obligation to treat this seriously. *When enough people do this, change will happen.*

If you work in the government, *talk to your supervisors and managers*. Ask them why there is such a big resistance that is emerging against the government. Ask them if they know about *Germany and how a dictatorship was formed*. There's no coincidence that Germany is the most awake country today (greatest percentage not taking swine flu, greatest percentage that believes 9/11 was an inside job).

*Become a whistleblower* if you see any *unethical* (non necessarily unlawful) activity. If you are a *buyer*, don't just give contracts to your friends. When you see contracts that are being favored, make sure you *call people out on it*.

## *Law*

Know your rights. Study [The Constitution](#). Study [The Charter of Rights & Freedoms](#). Any legal manipulation that is added on top of that understanding is corruption. Just because something is "*the law*" doesn't make it right, ethical, moral, or humane. Just because Obama calls you a terrorist doesn't make you one (but the law says it does). This is legal trickery to create a dictatorship.

Here are the most important ones to remember: *We have the freedom of free speech. We have the freedom of peaceful assembly.* When these rights are threatened, we lose our humanity.

Understand the difference between the *two kinds of law* (land/water, civil/UCC). The Law & Commerce portion of [Hijacking of Humanity](#) illustrates how citizens have been tricked into becoming employees of a corrupt corporation, giving up their rights and freedoms. Do not be tricked into giving your rights away, or only consciously choose which rights you are willing to give away for some benefits that you may receive.

If only certain people can manipulate the law for their own benefits (like the *trillion dollar bailout of the banks*), and *brainwash you through the media* to accept it because *they own the corporations*, then that is not an ethical legal system. You must *take a stand to all laws that are unethical, immoral, fraudulent, or inhumane* (e.g., torture -- as an example of legal trickery, the US government now "outsources" torture to

Instead of teaching calculus, why not *teach about interest rates and monetary policy*? Rather than give them printed material from the government, *show them how to do their own research on the Internet*. If children ask you things you don't know, *show them* -- and learn yourself -- *how to find the answers*.

*"The mediocre teacher tells.  
The good teacher explains.  
Superior teachers demonstrate.  
Great teachers inspire."*

- William Arthur Ward, Author, Editor & Pastor

Rather than condemning their violence, illustrate to them how they are behaving in a conditioned way by the media, and a *completely aligned* way with the state of the world. *There will always be violence in our neighborhoods so long as there are wars in our world.*

Once we understand that, then we can teach that to the next generation. And then, that generation will be *called to a greater purpose of eliminating wars* in the world, knowing that they are not wrong or bad, but just bi-products of a corrupt global system. *There is tremendous inspiration in knowing you can be at cause in its transformation.*

Use on-line educational and *entertaining tools*. There is so much available, like the [Our World Movie](#), available in *fifteen languages*.

### *Health-Care*

Despite the massive legal and media attacks on holistic practitioners and wellness organizations, *natural health and alternative medicine have gained a lot of respect* in the mainstream consciousness. The pharmaceutical companies have infiltrated their corruption in education, politics, media, and law. They have engineered a culture of corrupted behavior by continuing to bad-mouth and make false claims about solutions that would make them lose money.

We recommend traditional medicine for all emergencies and life-threatening situations. For all other situations, we encourage you to consider *natural health solutions* from web sites such as [Natural Cures](#) by Kevin Trudeau and explore *various modalities of the healing arts*. Have an *attitude of prevention* by using nutritional products like those from [Vemma](#) and [TriVita](#). [Melaleuca](#) is a wellness company that offers *eco-friendly*

*cleaning, laundry, bath/body, dental, and beauty products.*

**The general rule of community commerce:** If you do register on any of these web sites, always use: **A)** The name of the person who may have in the past told you about that particular product/service, first. **B)** The name of the person who told you about *this web site*, second (they may not be registered, in which case *you can register them*). And, **C)** If they don't want to participate, register under **Danish Ahmed** (creator of this web site).

Understand that lots of people are *making money from the swine flu*, and so they have a *vested interest* in giving you *a skewed perspective*. It is hard to believe that *good people would put money over humanity*, but we were warned about this in many religions, and we are facing it right now, head-to-head.

For more information about the Swine Flu (H1N1), visit [The Swine Flu Scam web site](#).

If you work in the health-care profession, tell your hospitals/clinics/schools that *you refuse to take the shot*,

**and you refuse to administer it.** If your job is threatened, let us ask you something: "**What was your job really?**" Do you want to fall victim to the same money-over-humanity paradigm that says you need to feed your family, and that they will just hire someone else and it won't make a difference? **You can always justify inhumane things**, because you can always justify anything. Ask yourself, what are you justifying?

## **Finance**

If you work for a bank, insurance company, or any kind of financial institution, go to your managers and directors, and **ask them why they allowed a trillion dollars of tax-payer money to support their unethical behavior.** When they say things like "**It wasn't me, not my department, you can't blame people,**" then take a stand. Ask them to go up the chain until we **find the decision makers that allowed corrupt things to happen.**

Tell them you will make this part of **YOUR job, and enroll everyone else in the company to do the same,** until we get the criminals from the top of these institutions to **give back their ENTIRE bonuses,** and resign.

When you sit back as an "**employee**" and **do nothing,** you are transforming yourself into a "**slave**"; not just an economic slave, **now a physical, emotional, and psychological slave for at least 8 to 12 hours a day.** Masters had to feed and house old slaves. You feed and house yourself.

One of the beautiful things about any **hierarchical organization** is that **any person** in the organization can communicate up the ranks until they can **get to the head-honcho.** You can do it if you don't let the gate-keepers intimidate you. If you are a gate-keeper, please allow us access.

If you are trading public stocks (currencies, futures, commodities, derivatives, options, etc.) full-time to sustain your lifestyle, please stop. You **are funding war** in the world, and you have **so many other options in our society of making a living.**

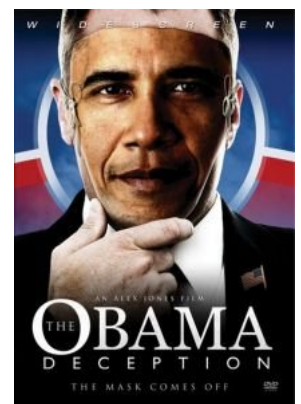

Those who are **financially independent,** we request that you focus your time, not on making more money or serving on boards of corporations, but on **devoting yourself to humanity.** You can support to awaken humanity in so many ways. Volunteering, philanthropy, **angel investing, supporting your financially-constrained friends,** capitalization (including time/resources) of charities/non-profits, **funding activism,** or **bringing this message to others,** are among a few noble possibilities.

## **The Climax**

We are in a time of history where the Internet is our **true hope of transcendence.** Obama is currently considering passing legislation that will give him the power to **shut-down the Internet.** If this happens, our leverage to awaken humanity now will be severely dissipated. So please share all of this **with urgency** so that we can shift consciousness, **and serve the world.**

Let this only be the end of the beginning. If you've read this far, you know too much not to do anything. Go back to the [section on community](#), and **engage with others.** You are the one you have been waiting for.

We love for who you are, and we admire you for who you are being.

## *Sexy Bonuses*

The media uses sexuality very aggressively. Sometimes we may demonize sex because we see it everywhere -- and not in the best of tastes all the time. It's important to remember that sex is a very beautiful and spiritual experience, worth honoring and cherishing.

Ironically, our society is deprived of *genuine affection* and many people don't know how to get their needs met in a way that *works for everyone*. [The Cuddle Party](#) is a great communications workshop on *boundaries, intimacy, and affection*. While a great cuddling event, the skills learned here apply in *every aspect of life* (e.g., learning when being polite is counter-productive, or having the confidence to change your mind).

Read this article called, ["Let's Talk About Sex, Baby!"](#)

For workshops around the world dealing with *intimate relationships and human sexuality*, consider [The Human Awareness Institute \(HAI\)](#). HAI empowers individuals to be *potent, loving, contributing* human beings. HAI promotes *personal growth and social evolution* by replacing ignorance and fear with awareness and love.

[The Sterling Institute of Relationship](#) transforms the quality of people's relationships by defining the differences between men and women so that they know their Selves, become closer to each other, and have the natural and loving relationship that will produce the partnership and the context necessary for the transition to a true global community.

If you're ready to go all the way, we recommend this great [workshop on tantric sexuality](#).

P.P.S. Did you think we were going to change the world in just three paragraphs? :) I started with three. And it's still not thousands of pages (like legislation) -- it's pretty simple stuff, actually. *Just share it.*
